

# BOURGOGNE ALIGOTÉ

**CM** CLOS du  
MOULIN  
aux MOINES

## TERROIR

Le Clos de la Perrière is located in Corpeau, south-east of the villages of Puligny-Montrachet and Chassagne-Montrachet. This 3-hectare plot is also planted with Pinot Noir and Chardonnay. The Clos benefits from a privileged environment; the plot is in the heart of the village, facing south and is protected by stone walls. The Aligotés are planted in front of the church.

## VINEYARD

The vineyard is cultivated organically with biodynamic preparations designed to encourage the life of the soil and its microbiological activity. The soil is worked, grass is grown in the winter and no chemical inputs are used in the treatments.

## WINEMAKING

Hand-picked, then direct and progressive pressing in a pneumatic press. The juice is then transferred into a stainless steel vat for fermentation without inputs (indigenous yeasts only). The wine is aged in stainless steel vat for 6 months.

We do a racking at the beginning of spring to clarify the wine naturally before bottling in May.

The wine is neither filtered nor fined.

Colour: White

Grape variety: Aligoté

Area (ha): 0.30

Planting date: 1967 and 1970

Soil: Clay and limestone

Altitude (m): 220

Exposure: South/South-East

Density (vines/ha): 10,000

Ageing potential: 3 to 5 years
